The Academy at Cedar Mountain is an accredited boarding school offering both a college preparatory and general academic diploma. Our program focuses on building solid academic skills, emotional maturity, and leadership skills. The mission is to provide a strong foundation that will help our students develop a sense of identity, establish a healthy set of values, and become confident, self-directed, lifelong learners. Academic assistance is available for students who may learn differently than the norm.

The Academy enrolls average to above average students in grades 7-12 who desire the structure, personal contact, and assistance that are available in our small community. Some of our students have previously been impacted by a wilderness experience, treatment center, or an emotional growth school and are here to develop academic skills and emotional maturity. Others are here to experience our small and personal academic environment that offers assistance to those who have experienced academic struggles in the past. We maintain a teacher ratio of 1:8 and specialize in ADD and ADHD.

Through the Emotional Growth Component, our students continue to build a strong sense of values, including accountability, responsibility, gratitude, respect, persistence, emotional maturity, honesty, truth, forgiveness, self confidence/self-esteem, and stress management. The Leadership Development program creates students who can make positive choices in life, understand the meaning of trust, and demonstrate leadership capability.
