Narrative by Becker, Trevor

First Submitted: 01/02/2025 17:22

BWC Activated and muted per General Orders*

On 12/15/2024 I was operating as a uniformed police officer when I dispatched to a cardiac arrest call located at [REDACTED]. It was reported that the Tucson Fire Department was treating a female subject that was found unresponsive by [REDACTED]. I was assisted by LPO Meron PR#103070 and Ofc Martinez PR#200425.

Incident Report P2412150157-1 (Report 1 of 5)

Narrative by Becker, Trevor (continued)

First Submitted: 01/02/2025 17:22

On arrival, I came in contact with LPO Meron who was speaking with a male, later identified as Christopher Laplante. I entered the bedroom of the apartment and viewed a female who was pronounced dead by TFD (Engine 5 at 2054) laying between the bed and the far wall of the room. I searched the area for any signs of struggle and/or paraphernalia for evidence leading to what happened to the female. Several needles and small bottles labeled of Naloxone were found scattered around the room. The female was identified as Kara Nealon, Christopher's [REDACTED]. I took pictures of the bedroom and submitted them to AXON.

I then spoke to Christopher about the incident. The following is paraphrased of what Christopher had told me:

- Around noon, Christopher and Kara were laying in their bed getting ready to sleep for a little while.
- Christopher had woke up some time later and noticed Kara laying on her side. He did not think anything was wrong.
- Christopher then began to clean the apartment for roughly an hour and noticed that Kara had not moved.
- Christopher then went to check on Kara and saw that she was unresponsive.
- Christopher tried to check Kara's pulse was was unsure if she had one.
- Christopher then grabbed some Naloxone and injected Kara in hopes that she would wake up.
- Kara did not respond to the Naloxone and Christopher began giving CPR.
- Once CPR did not work, Christopher called 911.

I asked Christopher the reasoning of why he would administer Naloxone to Kara and he told me that he had used it on other people who were unconscious. Christopher informed me that he thought that Kara would "wake up" after he injected her. I also asked why Christopher had Naloxone and he informed me that several people had given the vials to him randomly.

Christopher stated to me that Kara did not take any drugs and only drank. He also stated that Kara's only medical complaint was that she was [REDACTED] and that she was complaining about a [REDACTED]. I asked if Kara had taken any medications and he told me that she wasn't on any currently.

A records check showed that Kara only had contacts with police in 2020 referencing an alcohol related incident.

I exited the residence and was informed that LPO Meron had found a small pipe in the bathroom of the apartment that is common with fentanyl use.

I briefed Sgt Pena of the details of the incident and then called Sgt Hearn with the Counter Narcotics Alliance. It was decided to collect the small pipe and Kara's cellphone for evidence.

I called the Office of Medical Examiners and informed them of the situation and filed a report with investigator Levi Dever #22 case number 24-4330. OME informed me of their timeframe and I cleared from the scene to enter my evidence at EPIC.

While entering the evidence into EPIC, I was informed that multiple other paraphernalia items were collected at the scene. See officer supplements for more information. NFI

Narrative by Meron, Gregory

First Submitted: 12/16/2024 02:24

BWC

On December 15th, 2024, Ofc. Becker and I responded to [REDACTED] in reference to a death call. It was reported by Christopher Laplante had discovered [REDACTED] Kara Nealon, unresponsive and not breathing. Tucson Fire Department Engine 5 advised that Kara was beyond saving and that rigor mortis and lividity had begun to set. I arrived and contacted TFD. TFD advised that Christopher was in the living room and Kara's body was in the bedroom.

I entered the bedroom and observed Kara's body has on the floor, between the wall and the bed. I observed lividity had begun to set. Kara's left arm was slightly raised and stayed in place. I further observed multiple small vials of Naxalone in the bedroom along with a syringe on the T.V. stand. No narcotics or paraphernalia were seen in the bedroom or around Kara's body.

At that time, Ofc. Becker arrived and began to interview Christopher. I further inspected the residence for any possible reason for Kara's death.

After his interview, Ofc. Becker advised me of his interview. Christopher had discovered Kara was unresponsive after falling asleep together earlier in the day. Christopher attempted life saving measures including administering the Naxalone. Christopher advised that Kara did not sure any narcotics nor had any suicidal ideations recently.

Ofc. Becker and I then went to the bedroom to check if Kara had any narcotics or paraphernalia in her pockets or underneath her. Neither were located. Further look around the bedroom revealed two large butane lighters. Based off my training and experience, the butane lighters were commonly used by subjects who use narcotics.

I requested for a third officers to assist and stand by with Christopher to allow Ofc. Becker and I to continue our search of the scene. Ofc. Martinez arrived and stood by with Christopher outside of the residence.

I went to the bathroom to see if Kara had any prescribed medications. In a bathroom drawer, I located a small metal straw with residue and a butane lighter. I advised Ofc. Becker of my finding. I took field photographs of the paraphernalia.

Ofc. Becker contacted the Counter Narcotics Alliance and was advised that detectives would not be coming at that time. I was instructed by Ofc. Becker to collect the paraphernalia and Kara's cell phone. Both were collected and secured in Ofc. Becker's patrol vehicle.

I remained on scene as scene security until the Medical Examiner arrived (OME). Once OME arrived, we assisted with their investigation. Through the investigation, OME located additional glass pipes with residue in the draw of the TV stand. I collected the additional paraphernalia and took field photographs.

OME took custody of Kara's body.

I was then cleared from the scene.

NFI.

We got into a fight about money because of him depleting the account before he came back.

He was supposed to handle that because I wasn't going to be able to save that up in enough time. So he said he was going to sell guns and came back a few times ect. But now is MIA.

His mom has handled literally everything because I just became [REDACTED]. She would have to feed me.. come to the house to get me to start packing ect.

Case Number: 2412150157

Date: February 12, 2025

I received a copy of Kara Nealon's autopsy report from the Pima County Office of the Medical Examiner and their case number is 24-4330. Doctor Ryan Bruhns performed the autopsy. The cause of death ascribed to mixed drug toxicity (fentanyl and xylazine). The manner of death is accident. Attached to the autopsy report was a toxicology report from NMS Labs and their work order number is 24516907. Below are the positive results from the toxicology report.

Ethanol 124 mg/dL 001 - Iliac Blood

Blood Alcohol Concentration (BAC) 0.124 g/100 mL 001 - Iliac Blood

Caffeine Presumptive Positive mcg/mL 001 - Iliac Blood

Cotinine Presumptive Positive ng/mL 001 - Iliac Blood

Naloxone Presumptive Positive ng/mL 001 - Iliac Blood

Xylazine 23 ng/mL 001 - Iliac Blood

Fentanyl 34 ng/mL 001 - Iliac Blood

4-ANPP 1.6 ng/mL 001 - Iliac Blood

Creatinine (Vitreous Fluid) <0.500 mg/dL 003 - Vitreous Fluid

Sodium (Vitreous Fluid) 146 mmol/L 003 - Vitreous Fluid

Potassium (Vitreous Fluid) 11.7 mmol/L 003 - Vitreous Fluid

Chloride (Vitreous Fluid) 127 mmol/L 003 - Vitreous Fluid

Glucose (Vitreous Fluid) <10.0 mg/dL 003 - Vitreous Fluid

Urea Nitrogen (Vitreous Fluid) 6.90 mg/dL 003 - Vitreous Fluid

Case Number: 2412150157

Date: April 22, 2025

The [REDACTED] was arrested under Tucson Police Department case number 2502040035 and his cell phone was taken as evidence. A search warrant was obtained to download the cell phone under that case. There was no evidence found on how the victim obtained her narcotics.

There are no investigative leads to follow at this time. This case is closed.
