Investigation ID: 282

License #: 2917-14-001

Organization Name: Three Rivers Treatment Center, LLC

Date of Inspection: 07-08-2025

Program Type/Facility Name: 14-001 Three Rivers Treatment Center

<u>Standard(s) Cited</u>	<u>Comp</u>	<u>Description of Noncompliance</u>	<u>Actions to be Taken</u>	<u>Planned Comp. Date</u>
12VAC35-46-870. D. - There shall be at least one trained child care worker on duty and actively supervising residents at all times that one or more residents are present.	N	Three Rivers Treatment Center This regulation was NOT MET as evidenced by: The provider did not provide active supervision of Individual #1 during the van ride, allowing Individual #1 to open the van sliding door and jump from the moving vehicle, while two staff sat in the front seats of the van. The provider needs to submit a detailed action plan of the steps they have taken to keep this type of incident from reoccurring.	PR) 08/22/2025 PR1: Individual 1 was transported from scene of the incident to another facility and did not return to Three Rivers Treatment Center. Scheduled outings were postponed until corrective action was taken. Facility leadership reviewed transportation policies and processes in place at the time finding that while staff acknowledged a procedure for monitoring residents in the van while seated in the passenger area at the exit doors, this procedure was not always followed and was not specifically documented in the Facility's transportation policy. PR2: Transportation safety training was provided to all activities staff orienting staff to the requirement for a minimum of 2 staff to participate in each transport, one as a driver and one as a safety monitor seated by the doors to the passenger compartment. The Facility's transportation policy was revised to specify "A minimum of two (2) 3RTCA staff will accompany all residents/students during vehicle transport. One of these staff may be a transporter whose duties are specific to the driving and maintenance of the vehicle. The transporter may assist with resident/student management whenever the vehicle is safely parked and not in motion. The second staff member will sit in the passenger compartment with the residents at the door, to monitor resident behavior and prevent unauthorized exit." Activity outing assignments will specify which staff member will drive and which will be seated in the passenger area at the doors. Staff involved in the transport of Individual 1 received a suspension and on return to duty placed on a performance improvement plan.	8/31/2025
