Dear Planning Director:

This office has received an application for a license to operate a residential care facility referenced by Health and Safety Code, Section 1520.5.

This code section sets forth the State's policy and requirements regarding the over concentration of residential care facilities. It defines over concentration as "facilities which are separated by a distance of 300 feet or less, as measured from any point upon the outside walls of the structures housing such facilities." The law requires the Director of the Department of Social Services to deny an application for license if the proposed facility is 300 feet or less from another residential facility unless approval is obtained from the city or county in which the facility will be located. The law also requires the Department of Social Services to notify the local agency 45 days in advance of approving an application for license. The local agency may request denial based upon over concentration.

- X We have determined that the proposed facility is more than 300 feet from any other licensed residential home as defined by the Health and Safety Code. Therefore, should the referenced applicant meet other requirements for licensure, we will approve the application. Should your agency's review determine that the proposed facility is 300 feet or less from another residential facility, please notify us within 45 days.
- We have determined that the proposed facility is 300 feet or less from an existing facility. We remind you of your option to approve an exemption from the existing requirement based upon local needs and conditions. If you do not approve this exemption within 45 days, we will deny the application without further review.

Please include the above facility identifying information in any correspondence regarding this subject. Thank you for your attention to this matter.

Sincerely,

CHRISTINA GUTIERREZ

Re: CEDU Family Services

Dear Ms. Gutierrez:

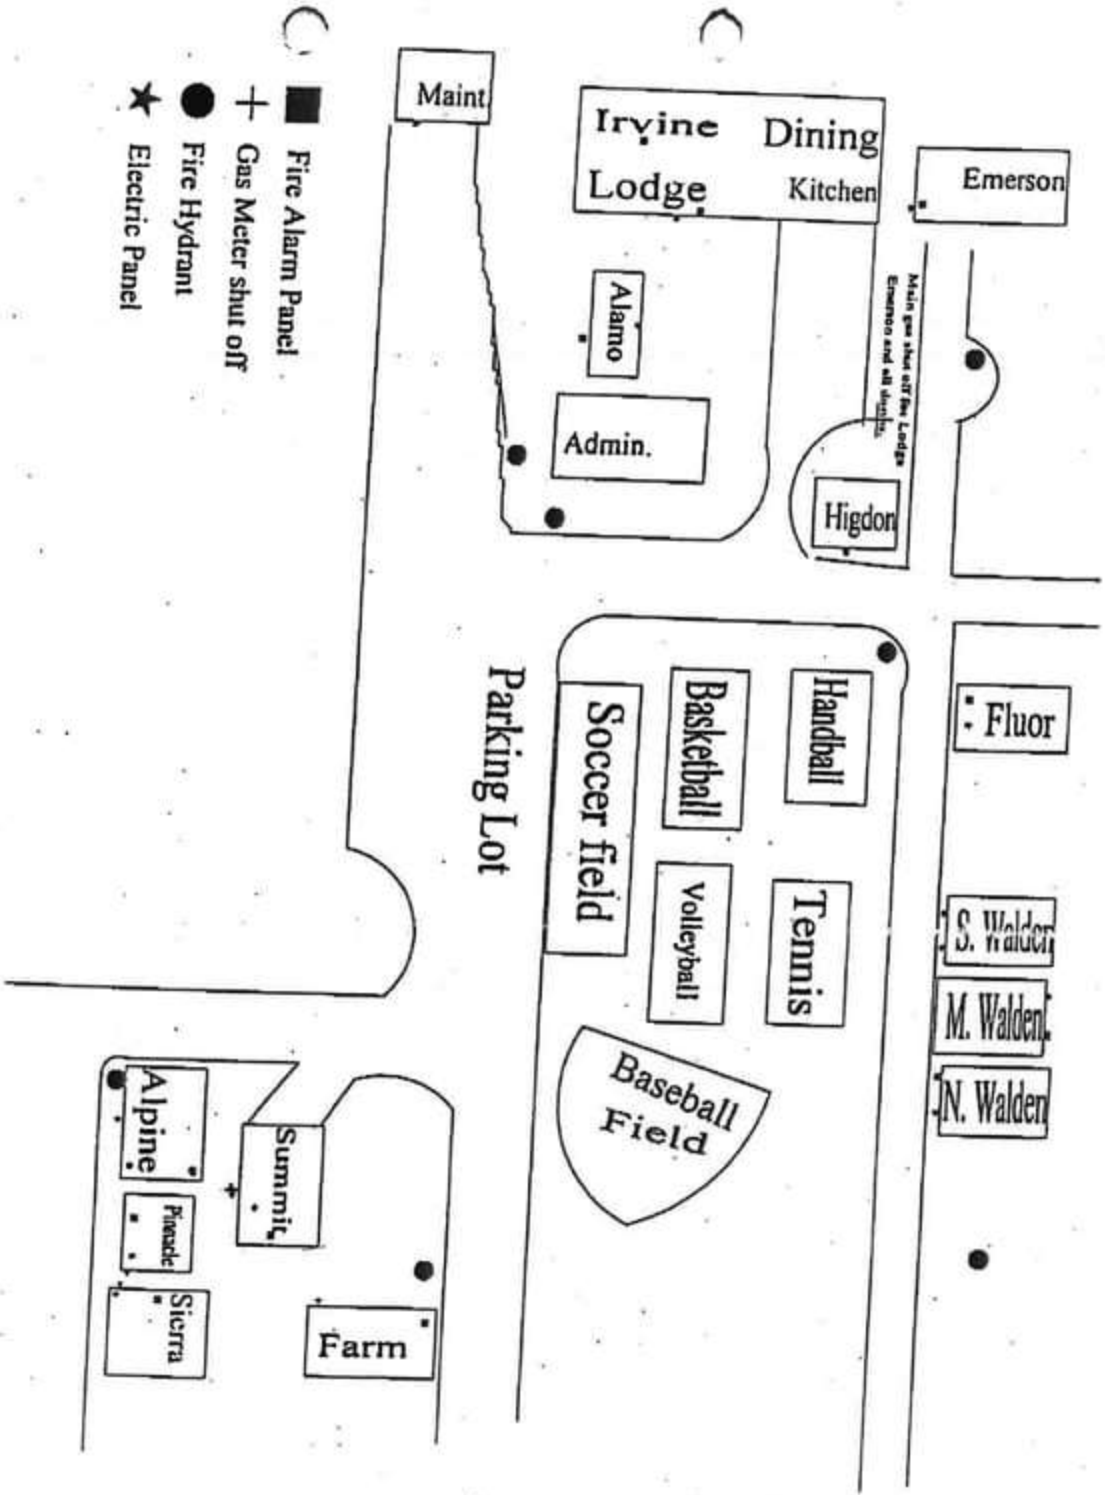

This is to inform you that the California Department of Forestry, under contract with the County of San Bernardino for County Service Area 38, is responsible for providing emergency operations, emergency medical services and communications in the geographic area of CEDU school.

In the event of a complete site evacuation due to an emergency, the San Bernardino County Sheriff's Department would inform all at-risk area residents of the impending danger. Evacuees would then be directed to a designated site for assemblage.

Sincerely,

Jeanne Ruvolo, Fire Inspector
