12VAC35-115-50. B. (2) - In receiving all services, each individual has the right to: 2. Be protected from harm including abuse, neglect, and exploitation.	N	Poplar Springs Hospital This regulation was NOT MET as evidenced by: "Neglect" means failure by a person, program, or facility operated, licensed, or funded by the department, excluding those operated by the Department of Corrections, responsible for providing services to do so, including nourishment, treatment, care, goods, or services necessary to the health, safety, or welfare of an individual receiving care or treatment for mental illness, intellectual disability, or substance abuse. Upon review of CHRIS entry A:20230040, the provider's investigation revealed: - Employee #1 permitted Individual #1 to have possession of the television remote without being aware of Individual #1's swallowing behaviors. - Due to Employee #1's negligence, Individual #1 ingested 2 AA batteries and required observation at a local medical facility. Based on the provider's investigative finding, there is a preponderance of evidence to support the provider's substantiated finding that Employee #1 failed to provide services necessary to the health, safety, or welfare of an individual receiving care or treatment for mental illness, intellectual disability, or substance abuse.	PR) 07/20/2023 Employee #1 was provided remedial training on the remote control protocol. All staff received a refresher on the remote control protocol during shift huddle to ensure supervision of patients and maintaining a safe environment for patients. RTC leadership will monitor and conduct random audits of staff following the remote control policy. Data from the audits will be reviewed monthly in patient safety council.
