In accordance with RSA 170-E, the department finds non-compliance with the following statutes and/or rules:

II. Non-Compliance List

Regulation number : He-C.4001.20.(a)

He-C.4001.20.(a) : Program staff shall provide care and supervision at all times to ensure that residents are safe and that their needs are met according to their developmental level, age, emotional or behavioral needs, and in accordance with their treatment plan.

Observation : The program self-reported that a staff member and three residents went on an off campus trip to a local gas station to purchase food. While at the gas station the staff member remained inside the store for approximately four minutes while the three residents were alone in the van. Resident A, Resident B and Staff A all confirmed that the residents were alone in the van for approximately one to four minutes unsupervised.

Corrective Action Plan : Due to other extenuating circumstances regarding this situation, the faculty member in question was terminated as there were some potential concerns around the faculty member also providing students with nicotine. While this was not confirmed, all faculty were re-trained regarding off-campus programming and supervision policies and procedures off-campus. In addition, all faculty at MPA are trained on off-campus supervision during the course of faculty institute.
