Regulation number : He-C 4001.14(a)

Program staff shall provide care and supervision at all times to ensure that residents are safe and that their needs are met according to their developmental level, age, emotional or behavioral needs, and in accordance with their treatment plan.

Observation : The program reported that on June 26, 2025, a resident absconded and was missing for approximately one hour. Staff A stated that the staff responsible for the resident did not follow protocol when the resident was moving from the phone area back to their community, which is how the resident was able to leave undetected, adding that the resident was out of supervision for close to one hour. Staff B, C, and D stated that the program activated the absconding protocol upon discovering that a resident was unaccounted for and that the resident returned to the program after approximately one hour. During an interview with the resident they stated that they left the program without staff being aware and hid in bushes across the street from the program until being discovered by a staff and returning to the program.

Corrective Action Plan : Radio and supervision protocol was reviewed with all faculty present at the residential training meeting on 7/9/25. Faculty were re-trained and re-educated regarding radio transmission policy as well as supervision policy and procedures related to problematic sexual behavior population.
