Executive Director - Jim Oleson

Residential Capacity: 38

YSI purchased and assumed operating control of Parc Place in August 1994. This 38-bed residential and day treatment center provides care for adolescents with chemical dependency and behavioral health problems, as well as adjudicated youth with similar behavioral health issues.

Parc Place maintains a full array of day and evening treatment for difficult-to-place students with a history of substance abuse, multiple failed treatments, anger management difficulties, depression, self-destructive behavior, criminal activity, family dysfunction, and educational problems. A three-to-six week CHAMPUS-certified substance abuse program is available for co-eds from 12 to 18 years old, while a two-to-four month residential substance abuse program is available for delinquent males from 12 to 18 years old. A 30-day transitional living program, which helps lead to long-term placement and transitioning back into the community, is also available for 12 to 18 year old males. Parc Place does accept private insurance.
