The first of the original Three Springs programs that was started in 1985, the Paint Rock Valley Boys campus after over twenty-six years will soon close its doors. In an email sent out by Kathy Demellier, Director of Admissions she says, "It is with sadness and disappointment to let you know that we just got the word this week that Sequel Youth and Family Services has made the decision to close the Paint Rock Valley Campus effective May 31st. The struggling economy has made it hard to keep kids in our program and despite many attempts at trying to continue to get kids we have been unsuccessful."

The care of the students and families are currently the highest priority at the Paint Rock Valley campus. We want to help make this transition as smooth as possible for them in what the next step may be as soon as possible.

With the close of the Paint Rock Valley campus we will host a reunion that will consist of old staff members, former residents, and their families from the Paint Rock Valley campus. This will be a great way to celebrate the accomplishments you have all made and get reconnected with one another. For more information on this reunion, please contact me at kathy.demellier@sequeltsi.com.

Sequel TSI is a nationally recognized leader in youth services. Founded in 1985 to provide therapy and education to adolescents struggling with emotional, behavioral and learning issues, our experienced, trained staff members strive to provide compassionate, professional support to the children in our care.
