A Therapeutic Boarding School

About Auldern Academy

While we can always provide a more detailed list of the diagnoses our girls may present; what's important is that we have nearly 20 years of experience working with young women from all

over the United States. We help our students heal, grow, and learn to develop and internalize the life skills and tools they'll need to live emotionally healthy, productive, and resilient lives. We are passionate about our work with these young women because we want them to become passionate about themselves.

Our Day to Day

Campus Tour

The quickest way to see and feel this at

Aulder Academy is to watch the relationships around campus – students with their therapists, teachers, student life coaches, the kitchen or grounds crew, and with each other. We empower our students to discover the life they want to live, full of meaning and purpose, that allows their passions to be explored.

Aulder Academy students will live, learn, and go on their way with a strong sense of who they are.
