- Turn left onto Ricker Road.
- The facility is at the end of Ricker Road on the right hand side of the road.

Program Description:

Duval Academy is comprised of multiple co-located residential commitment programs serving moderate risk male youth aged 13 to 18 who require behavioral/mental health and substance abuse services. The programs utilize evidence-based practices to provide comprehensive care, treatment, and supervision. Youth will also receive psychotherapeutic services, including individual, family, and group counseling while at the program.

A youth's length of stay is determined by the youth's assessed risk to reoffend, their progress in reducing applicable criminogenic needs and risk factors, and the completion of their individualized treatment plan.

Academic & Career Education:
The Florida Scholars Academy provides all educational services for residential commitment programs within the Florida Department of Juvenile Justice. It offers a tailored education system that accommodates the unique needs of each student by providing multiple pathways to success. The academy offers individualized support to help students achieve their educational and career goals. This includes obtaining a high school or equivalent diploma, earning valuable industry-recognized credentials, and/or enrolling in postsecondary education at a Florida college, university, or technical college. The ultimate aim is to equip students with the necessary skills and qualifications for a successful career.
