 Gulf Coast Academy

Gulf Coast Academy

Gulf Coast Academy (GCA) is a highly structured, co-educational boarding school that specializes in students who are underachieving due to their own environmental and behavioral choices. GCA offers parents an educational and developmental alternative that allows the child to escape from his/her self-limiting behaviors and get a fresh start. This facility was founded originally 20 years ago in 1988 as a boys school, and was recently acquired by Gulf Coast Academy. GCA has been a refreshing alternative for hundreds of families who deal with the challenges of parenting in an increasingly complicated world.

 Gulf Coast Academy
Building

 Students GCA is an innovative and effective program for teens who are struggling at home, at school, and in the community. The mission of GCA is to create positive change and personal growth in the lives of the students and their families by teaching values, integrity, honor, and respect for authority. The school provides an atmosphere for teens struggling with self-esteem and emotional growth.
