Always Free Placement Advice for Troubled Teens

Need an Alternative or Special School for Your Teenager? Best Choice Network is Here to Help You 24/7... Without Cost or Obligation! We'll Help You Find the Right School or Program -- One that Fits Your Child's Needs and Your Budget. There is Never a Cost for Our Assistance.

We're an independent service specializing in placing troubled teenagers in therapeutic programs or safe schools. We charge the schools for our time, versus you, so there is no cost to you. We work with hundreds of schools, not just a few like many educational consultants do. Our goal is to find the absolutely best choice for your student. We possess comprehensive knowledge of placement options for at-risk kids, including children with oppositional behaviors, substance abuse problems, learning difficulties, substance abuse, and other emotional/behavioral difficulties.

We will help you find the most suitable solution, based on your income and your child's needs. We spend a great deal of our time on the road, visiting and evaluating programs. After conducting such visits and getting reports from parents, we have a good understanding of the strengths, options, and staff expertise of any school.

What works for one adolescent may not be appropriate for another. Each student and their family's situation is different. Teaching styles, religious affiliation, specialized services and the role of arts and athletics are elements that define each school. Getting it right can make the difference between a mediocre experience and a tremendously fulfilling one.

Do you know what factors should be considered when selecting a therapeutic boarding school, military school, traditional boarding school or wilderness program for your troubled teen? And how do you know if it is right for your child and family?

We'll help you. Unfortunately, many kids bounce from program to program until they find one that works for them. Needless to say, that is a huge cost and frustration to parents. So lean on our firsthand experience. We can help you find the right school or program, the first time. We will never pressure you to choose any particular school and our help never affects the tuition rate of any school or program we recommend.
