This school for boys in Texas is dedicated to offering at-risk and troubled young men a transformative path toward a new, more productive future. We specialize in helping boys with issues such as oppositional defiant disorder (ODD), attention deficit disorder (ADD), and attention deficit hyperactivity disorder (ADHD). We address the root causes of the boys' struggles. We provide individual and group mentoring, equipping students with coping strategies. Life skills training is a crucial part of the experience, emphasizing responsibility, discipline, and leadership through hands-on activities and community service projects. This school offers a safe, structured setting where boys can rebuild their lives, gaining the tools they need to succeed academically, emotionally, and spiritually.
