Sami Butler

Sami Butler, Intermountain

Sami Butler is a licensed registered nurse and the Professional Relations Manager of Intermountain, a 102 year old nonprofit residential treatment program serving young children. Her professional experience includes over twenty years of nursing,

extensive lobbying, serving on volunteer boards, fundraising, coordinating international healthcare teams, and serving as an association executive director. Sami is active on the NATSAP Public Policy Committee and attends the national NATSAP conferences each year. She has also served on the Rock Mountain Regional NATSAP Board. Sami believes that as society changes, our maturing professional organization can and must respond to the environment by advancing awareness with a consistent voice, influencing public policy, and accelerating knowledge, understanding, and best practices in the treatment of our youth.
