Address: 810 North Main
Nephi, UT 84648

Executive Contact: Lee Wardle

Skyline Journey is a licensed emotional growth, educational, therapeutic, and experiential outdoor behavioral program. Skyline Journey is committed to teaching and modeling integrity, moral values, and excellence in character. Through the medium of primitive cultures, we facilitate positive change for students and families in a unique outdoor setting. This program involves an educational outdoor journey that teaches students to abandon destructive behavior while setting their life's goals and ambitions at the top of the summit.

Skyline Journey's outdoor program is an intensive experience. We require a twenty-eight day minimum but the ultimate length is variable depending on the progress of the student and the needs of both the student and parents. Skyline Journey is developed to accommodate a diversified population of at-risk adolescents ages 13 through 17. We treat adolescents with challenges such as Oppositional defiant disorders, chemical dependence, impulse control disorder, depressions, ADD and other behavioral disorders.

Skyline Journey is a non-deprivation program. We do not feel it is in the best interest of the student to deprive them of basic comforts such as appropriate clothing, bedding, food and water. Skyline Journey outfits each teen with everything needed to ensure their comfort and security. during each student's stay with Skyline Journey they have the opportunity to "offer up" any unneeded items as they progress in the program and learn new skills. We incorporate traditional therapeutic treatment and a Native American theme on the West Desert of Utah. The outdoor setting serves as a very effective milieu to the treatment of a multitude of issues.

Individual Psychotherapy Available: Yes
