RESIDENTIAL INSIGHTS

Discovering Answers, Planning Solutions

At ViewPoint Center, we combine all aspects of a child's life – socializing, academics, and a home-like environment – to develop comprehensive insights into a child's diagnosis. This complete picture enables us to form a strong long-term treatment plan.

Our short-term [residential program](#), located just outside Salt Lake City, uses a range of assessment programming to build a comprehensive, personalized plan for further treatment and continued success.

Whether your child is coming from a long-term therapeutic program, coming from home, or recovering from a crisis situation, our [assessment programming](#) identifies specific issues and formulates a new treatment plan. ViewPoint Center can provide the immediate support your child needs to begin their path towards healing.

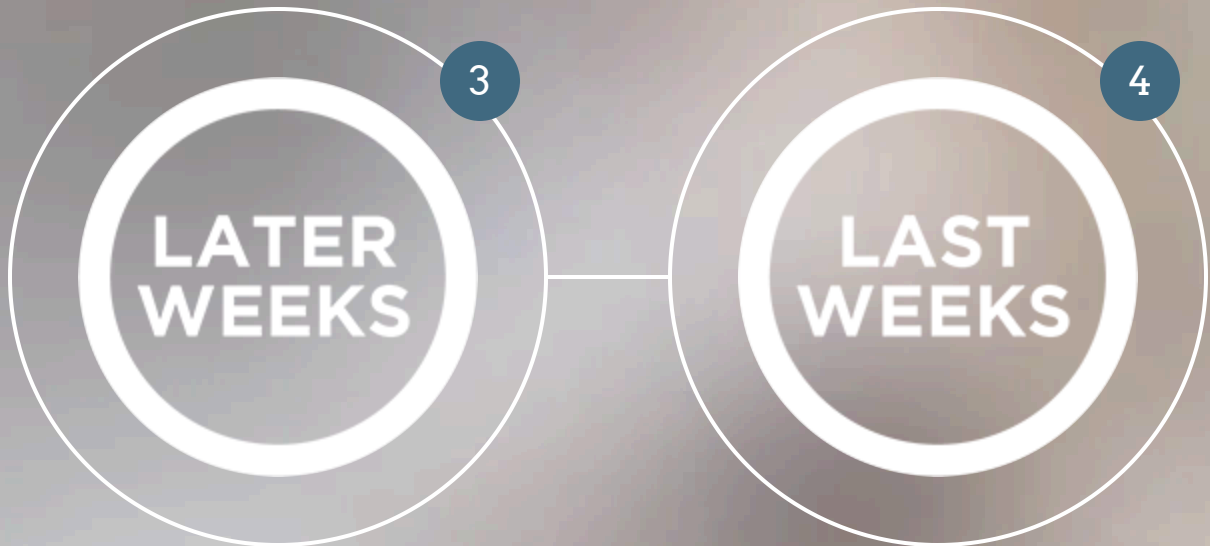

A dedicated, [experienced team](#) will support both you and your child, sharing insights and working together to prevent challenges from recurring. ViewPoint Center is built around understanding your child's struggles and developing a clear course of action for the future.

Director Of Assessment

Accurate, Effective Treatment

Is your family seeking answers to your child's mental health challenges? Don't wait. Our trusted, compassionate assessments are the first step toward recovery.

Many of the families entering ViewPoint have inaccurate diagnoses. We uncover the challenges and create an effective path to tomorrow.

do better; we are committed to do more. Our goal is to make everlasting change in the lives of our students and their families as well as create a safe space on our campus for all students, staff, and families. We will continue to listen, improve, evolve, and grow.

The Syracuse Campus Leadership Team

The ViewPoint Center is a comprehensive therapeutic assessment facility licensed as a specialty psychiatric hospital for adolescents of all genders ages 6-17. ViewPoint employs two tracks, to be used independently or in succession, to accommodate the individualized needs of each patient. The short-term stabilization track provides a safe and nurturing environment that helps to stabilize a patient psychiatrically and clinically. The assessment track provides a comprehensive interdisciplinary evaluation involving psychiatry, clinical, medical, academic, neuropsychological and social milieu functioning. The 8-week clinical assessment provides answers to the most complex diagnostic questions as well as recommendations for longer term treatment. ViewPoint's small, inviting campus is located 30 minutes north of Salt Lake City, Utah.
